

## EIN TAG DEUTSCH IN DER PFLEGE | Playfully training the vocational language

Free learning game with exercises on communication, vocabulary, structures and pronunciation – for learners of German language level B1 and higher.

### DESCRIPTION

Working in health care you will be facing linguistic challenges. This game is designed for you to practice your communicational skills with different people during your work day as you will meet the patient Torben Teller, his caring wife and the demanding senior physician Dr. Thewes. No need to worry, helpful colleagues are at your side.

The game presents numerous authentic **conversations** of everyday work in health care. Choose what to say!

In additional **exercises** on communication, grammar, vocabulary and pronunciation you will internalize the main linguistic aspects of the setting.

Once you don't know a word the **dictionary** will help you out.

As well as the **infobox** which provides useful information about working in health care in Germany.
